

Pump series MFP2 & MFP3

Typical characteristics

- Stainless steel pump for high flow
- **Robust** executed hygienic process pump in cast stainless steel 316L.
- **Extreme energy saving** thanks to optimum pump hydraulics.
- Modular concept composed with standard components.
- Easy maintenance
- Electropolished so **higher corrosion resistance** and **easier to clean**.

Technical data

Max. flow	1250 m ³ /h
Max. head	7 bar
Max. product viscosity	500 cP
Motor power up to	132 kW

Applications

The Packo pumps of the MFP series are used on the most demanding hygienic applications in almost all industries such as dairies, breweries, beverage industry, distilleries, etc. These robust process pumps are the ideal reliable component for filtration applications, pasteurization, yeast propagation as well as for CIP cleaning systems.

Typical applications include filtration of beer, wine and fruit juices as well as pumping yeast, whey, curd, CIP, etc.

Performance Pump series MFP2

Performance Pump series MFP3
